SUMMARY

A dedicated and results-driven professional with a passion for technology, specializing in both software development and IT solutions. Experienced in building innovative applications to solve problems, managing projects, and collaborating within a team to solve challenges. Committed to continuous learning, optimizing systems, and enhancing user experiences through a customer-service driven mindset while utilizing evolving technologies and strategic problem-solving.

EDUCATION

Bachelor of Science in Computer Science

Minor in Mathematics • Salem State University • Salem, MA • 2025 • 3.82

- Awarded Mathematics Achievement Award by NSCC Math Department

EXPERIENCE

IT Specialist - School District

Georgetown Public Schools **December 2024 - Present, Georgetown, MA**

- Provide technical support for 1,200 students and 300 staff across four schools.
- Support Aspen, PaperCut, Clever, and other school-specific platforms by resolving access, account, and technical issues for staff, students, and parents.
- Managed Mitel VoIP phone systems, including user provisioning, system configuration, and advanced troubleshooting.
- Created and managed Google Admin accounts and devices; assigned organizational units (OUs) and applied group-based policies for staff, students, and function-specific devices.
- Develop, purpose, and implement custom internal software solutions to meet district needs.
- Managed Apple device fleet using Jamf, including enrollment, configuration profiles, application deployment, and policy enforcement.
- Set up and operated A/V systems for events, assemblies, and town meetings; managed digital signage (MediaMaster), including content scheduling, display control, and system troubleshooting across district schools.
- Managed full device lifecycle, including deployment, maintenance, troubleshooting, and repairs for staff and student devices (MacOS, ChromeOS, and Windows).

Sales & Digital Solutions Manager

Coffee Time Bake Shop **February 2018 - December 2024, Salem, MA**

- Led and trained all sales personnel, optimized operations and improved efficiency
- Developed and proposed company website
- Spearheaded the integration of digital solutions, proposing online sales through company website

Technical Assistant

House of Nerds **May 2015 - January 2016, Oslo, Norway**

- Managed and maintained networks and PCs, Macs, and gaming console inventory
- Assisted with software imaging, builds, and repair

PROJECTS

Software Engineer

FitXpress • fitxpress.app

- Designed and implemented a cloud-native fitness application using AWS services for authentication, serverless functions, and database management.
- Built features to calculate body metrics and generate customized weekly exercise plans for users.
- Implemented interactive data visualizations to display user progress and results.

Frontend Developer

Graphic Designer Portfolio • portfolio.naashka.com/

- Designed and developed a visually engaging portfolio website that authentically replicates the classic Windows 95 OS using component library React95.
- Collaborated closely with the client to align the website's look, feel, and user experience with their personal brand and vision.

Software Engineer

Player Showcase • bestvayne.com/

- Stat tracking web app to display a player's real-time stats, history, and more in League of Legends utilizing Riot API
- Built using React, Tailwind CSS, Node.js, and Express.
